Jacquard Pearl Ex Powdered Pigments 3gr

[Pearl Ex Instructions](#) [Pearl Ex How to Make Calligraphy-Ink](#)

SKU: JAC JPXU

Price: \$3.99

Product Description

Jacquard's most versatile product yet, Pearl Ex Powdered Pigments may be used any time a metallic or pearlescent effect is desired: mix them into acrylics, oils, printing inks, encaustics, alcohol inks, epoxy, glues, casting resins, clay, varnishes?the list goes on!

Try it mixed with [Gum Arabic](#) for a DIY metallic calligraphy ink or watercolor, in the [Pearl Ex Varnish](#) for working on non-porous surfaces, or mixed into one of Jacquard's [colorless extenders](#)

for use on fabric.

Pearl Ex is a safe, inert pigment that exhibits extreme colorfastness and stability. The different particle sizes produce different effects, from a smooth pearly luster, to a highly metallic sheen. Pearl Ex creates a metallic effect without being a real metal?it will never tarnish or fade!

Note: Pearl Ex Powdered Pigments were specifically developed as an art material. They are NOT for cosmetic use.

FABRIC/FIBER/SURFACES polymer clay, encaustics, paper, shrink plastic, leather, glass, canvas, wood, and more! Mix with a binder to use on natural and synthetic fibers.

Jacquard Pearl Ex Powdered Pigments 14gr-21.26gr

Please note that the jars are all the same size however the pigments can either be 21g or 14g inside depending on the pigment color

JACQUARD Basic Dye 14.17g

Basic Dye

The perfect solution for hard-to-dye materials. Developed for acrylic fibers (e.g. faux fur, wigs and inexpensive yarn), these dyes are also the go-to for wood, reeds, straw, paper, leather and hemp!

[Basic Dye Instructions](#)

SKU: JAC JBDI

Price: \$7.49

Product Description

Basic Dye Instructions

Basic Dye

The perfect solution for hard-to-dye materials. Developed for acrylic fibers (e.g. faux fur, wigs and inexpensive yarn), these dyes are also the go-to for wood, reeds, straw, paper, leather and hemp! Use them for potpourri, dolls, buttons and furniture, or add to [Pi?ata Claro Extender](#) for custom alcohol ink colors.

An essential tool for cosplay artists!

Basic Dyes are exceptionally easy to use. The process is so simple that commercial dyers often use them to color fibers such as silk and wool; however, they tend to have poor light- and washfastness on fabric, so Basic Dyes are generally only used by home fabric dyers when other dyes are not an option. As a class, Basic Dyes offer some of the most vibrant and intense colors available for any fiber, and are frequently used when maximum color intensity is desired.

Dip-dye or brush on!

FABRIC/FIBER/SURFACES acrylic fibers, wood, reeds, straw, hemp, paper and leather

JACQUARD Acid Dye 14.17g

Acid Dye

Jacquard Acid dyes are used to color silk, wool, feathers, other protein fibers and nylons, and nothing does it better

[Acid Dye Technical Info!](#)

[Acid Dye Color Mixing Chart](#)

[Steaming Instructions](#)

[Acid Dye Instructions](#)

SKU: JAC 16

Price: \$5.99

Product Description

Acid Dye

Jacquard Acid dyes 14.17g are used to color silk, wool, feathers, other protein fibers and nylons, and nothing does it better! Extremely brilliant and colorfast, Jacquard Acid Dyes are highly concentrated, powdered hot water dyes that produce level, uniform color during immersion dyeing. They exhaust well and won't bleed or fade with washing. Of all the colorants in the

world, acid dyes are known to produce the most luscious colors of all, and Jacquard's palette is unsurpassed for quality, intensity and consistency.

In addition to yarn, fiber and fabric dyeing, Jacquard Acid Dyes may also be used for direct painting or printing applications, using steam setting.

Don't be alarmed by the name—the only acid involved is the white vinegar or citric acid that you add to the dye bath.

FABRIC/FIBER/SURFACES nylons and protein fibers: silk, wool, cashmere, alpaca, feathers, etc.

Jacquard iDye For Natural Fabrics 14gr

SKU: JAC JID -

Price: \$8.10

Product Description

Dyeing has never been easier than with iDye from Jacquard! iDye comes in a dissolvable packet, so there are never any messy powders to handle: simply dissolve the packet in the dye bath or drop it in the washer, then add the fabric. iDye is a hot water dye that produces brilliant colors, with options for natural or synthetic fibers.

Dyeing solid, uniform colors has never been easier than with iDye for Natural Fabrics from Jacquard!

A hot water dye that produces brilliant colors on any natural fabric, iDye may be used on the stovetop or in the washing machine on the hottest cycle. Great for over-dyeing techniques and reviving faded garments!

FABRIC/FIBER/SURFACES cotton, linen, canvas, silk, rayon and more

Jacquard iDye Poly For Synthetic Fibers 14gr

SKU: JAC JID

Price: \$9.32

Product Description

Dye Poly is virtually the only dye that will color polyester. In fact, it will color almost anything synthetic, including plastics and nylons, buttons, frisbee discs, Worbla & Thibra, 3D printed objects, toys, dolls, wigs, cleats, urethane coatings and more. The dye comes in a dissolvable packet, so there are never any messy powders to handle: simply drop the packet in a pot of water, add the fabric or objects and bring to a simmer.

An essential tool for cosplay artists!

FABRIC/FIBER/SURFACES polyester, nylon, poly/cotton blends*, plastics and more
