Product Description

Jacquard Lumiere 3D 29ML- 3 NIBS

SKU: JAC JDP0

Price: \$5.16

Product Description

Lumiere 3D is a dimensional metallic/pearlescent paint that doubles as a powerful adhesive. Based on our popular Lumiere line, this unique paint is perfect for embellishing, drawing and writing on T-shirts, greeting cards, scrapbooks, fabric, ribbon, leather, gourds, shoes, yard art and much more! Use Lumiere 3D as a bead glue, shoe glue, a super-strong fabric glue or to firmly attach ?jewels? or other objects to practically any surface. Lumiere 3D can be used directly from the bottle or with the addition of our fine line tips. It is completely washable after drying 72 hours.

Jacquard Textile Paint 66.54 ML

SKU: JAC 11

Price: \$6.10

Product Description

The go-to, artist's standard for professional-quality fabric paints, Textile Color leaves fabric as soft as possible and holds up exceptionally well to washing. Permanent and colorfast on both synthetic and natural fabrics, including stretchy and extruded fabrics, as well as on other porous and semi-porous surfaces like wood and leather, Textile Color never chips, cracks or peels, even with repeated wear and washing. Applied straight from the bottle, the color is semi-transparent and intense. Add up to 25% water to this medium-bodied paint to increase transparency and reduce viscosity, or mix with #100 [Colorless Extender](#) to achieve any degree of transparency without affecting the consistency of the paint. Mix with #123 White for pastels. For opaque colors, mix with #220 Super Opaque White or use [Neopaque](#) paints.

Textile Colors can be intermixed to form essentially any color. They can also be mixed and/or used in conjunction with our [Lumiere](#), [Neopaque](#) and [Dye-Na-Flow](#) lines and are an excellent medium for [Pearl Ex Powdered Pigments](#).

TECHNIQUES painting, block printing, mono printing, stenciling and stamping

FABRIC/FIBER/SURFACES natural and synthetic fabrics, leather, wood, shoes, canvas, paper and more

Product Description

Jacquard Marbling Colors 59.15 ML

SKU: JAC JMA

Price: \$6.54

Product Description

Marbling is the ancient art of floating paint on the surface of thickened water (known as the "marbling size") and then transferring the floating design onto paper or fabric. It has a rich history throughout Europe and Asia.

Jacquard's marbling system eliminates the guesswork that is typically associated with marbling and allows even beginners to achieve professional-quality results. All Jacquard's Marbling Colors spread equally on the marbling size and produce the most intense colors possible. On fabric, the Marbling Colors are soft to the touch and completely washfast after heat setting. On other porous and semi-porous surfaces, the paints have excellent adhesion.

FABRIC/FIBER/SURFACES any porous or semi-porous surface, including natural and synthetic fabrics, canvas, paper, wood, leather and more
