

Pinty Plus Aqua 210ml

Pinty Plus Aqua Water-based Spray Paint, Range Of 18 Colors, 210ml.

SKU: PINT AQ

Price: \$7.08 – \$9.20

Product Description

The water based spray paint, Pinty Plus Aqua, has been developed principally to be used inside a house, in reduced spaces or places that have poor ventilation. It is a water-based spray paint in matt colours and low pressure, does not smell, and has excellent adherence and coverage.

The formulation has been developed to offer triple value:

1. Painting with minimal over-spray, without staining or any small drops of paint close to the surface.
2. Maximum respect for the health of people and the environment, does not smell.
3. Stimulates creativity.

The perfect spray paint for painting inside a house.

Application of the water based spray paint

This water-based spray paint is low pressured so painting is possible and becomes usual in your house. The applications with this paint are unlimited! Decorating small objects for handy jobs, arts and craft or scrap-booking among other ideas are perfect. It's suitable to apply on paper, cardboard, wood, stone, cement, plaster, metal, plastic and polystyrene? even painting balloons!

Technical characteristics

- Size 210ml
- Spreading spray = 0.70 m2

- Dry time 1 hour (15 minutes on porous surfaces).
- Repaint after 30 minutes.

Very good adherence on wood, ropes, methacrylate, cork, polystyrene, carbon steel and stainless steel.

Pinty Plus Chalk Finish 520ml

Pinty Plus Chalk Finish Spray Paint Can, Range Of 19 Unique Colors, 520ml.

SKU: PINT CK

Price: \$11.58

Product Description

Chalk paint spray Pintyplus for decoration purposes. Ultra matt finish with a velvety appearance. Perfect for any surface including expanded polystyrene. It can be washed with soap and water within the first 15 minutes. Maximum coverage and fast drying. Water-based formulated, it is more respectful of the environment.

Applications For The Chalk Finish Paint Pinty Plus

Allows for easy decoration of multiple surfaces in order to give a vintage touch to your objects. Ideal on wood, melamine, canvas, iron, plastic, cardboard and even on glass. As it does not contain aggressive solvents, it does not attack the expanded polystyrene. The chalk spray paint Pinty Plus is indicated for fans and professionals of the decoration and restoration world. The spray format minimizes the time it takes to paint because it covers very quickly and paints any surface uniformly. It also avoids brush marks and allows the distress technique.
