

Jacquard Pearl Ex Powdered Pigments 3gr

[Pearl Ex Instructions](#) [Pearl Ex How to Make Calligraphy-Ink](#)

SKU: JAC JPXU

Price: \$3.99

Product Description

Jacquard's most versatile product yet, Pearl Ex Powdered Pigments may be used any time a metallic or pearlescent effect is desired: mix them into acrylics, oils, printing inks, encaustics, alcohol inks, epoxy, glues, casting resins, clay, varnishes?the list goes on!

Try it mixed with [Gum Arabic](#) for a DIY metallic calligraphy ink or watercolor, in the [Pearl Ex Varnish](#) for working on non-porous surfaces, or mixed into one of Jacquard's [colorless extenders](#) for use on fabric.

Pearl Ex is a safe, inert pigment that exhibits extreme colorfastness and stability. The different particle sizes produce different effects, from a smooth pearly luster, to a highly metallic sheen. Pearl Ex creates a metallic effect without being a real metal?it will never tarnish or fade!

Note: Pearl Ex Powdered Pigments were specifically developed as an art material. They are NOT for cosmetic use.

FABRIC/FIBER/SURFACES polymer clay, encaustics, paper, shrink plastic, leather, glass, canvas, wood, and more! Mix with a binder to use on natural and synthetic fibers.
