

MOD PODGE ULTRA SATIN 4 OZ.

SKU: PLAID CS25380

Price: \$21.44

Product Description

Mod Podge Ultra Satin is a super-strong, spray formula that works as an all-in-one glue and sealer with a high adhesion level. Mod Podge Ultra Satin is a part of the Mod Podge family of brands but is different compared to any other Mod Podge formula. Though this is a thinner formula, it has the same strong durability as Mod Podge. This versatile water-based, non-toxic decoupage formula comes in a gloss, matte, and satin finish that naturally self-levels, and leaves no brush marks. Use this spray decoupage glue to apply decorative and 3D elements to your projects. You can spray, pour, or brush on this unique formula of Mod Podge. Before using Mod Podge Ultra shake the bottle well. Prime the nozzle with a few pumps and spray away from your project to test the spray strength, as the nozzle may sputter. To prevent excess application and prevent drips, apply thin coats rather than one thick coat to your project. For best results elevate your project off of your work surface so Ultra can flow over the edge. While your surface is wet with Mod Podge Ultra, feel free to add any design elements. Allow your project to dry for 4 to 24 hours. Immediately clean the Mod Podge Ultra spray nozzle after each use so that it remains open and clog-free for future use. Make Mod Podge Ultra Satin an essential part of how you protect your arts and crafts. CONVENIENT SIZE ? Mod Podge Ultra Satin comes in a 4 oz size - perfect for all your decoupage projects! This spray decoupage glue also comes in a gloss and a matte finish in two versatile sizes: 4 oz and 8 oz UNIQUE FORMULA - This unique thin spray formula acts as an all-in-one glue and sealer, has high adhesion, will leave no brushstrokes, is self-leveling, and is non-tacky - perfect for adding decorative and 3D elements to your decoupage projects DURABLE PROTECTION - This durable, multi-surface formula is great for indoor and outdoor use. You can spray, pour, or brush on this unique formula of Mod Podge USE ON MULTIPLE SURFACES - Use this scratch and water-resistant

formula on a variety of surfaces including wood, canvas, terra cotta, metal, and more **STRONG SEAL** - Allow your project to dry for 4 to 24 hours, then apply a top coat of Mod Podge Ultra once completely dry for added durability **MADE IN THE USA** - Mod Podge Ultra has a water-based and non-toxic formula that is made in the USA **FORMULA ?** Mod Podge is great for crafting with all ages. Expand your decoupage supplies with this retro brand!
