

MOD PODGE ULTRA MATTE 8 OZ.

SKU: PLAID-CS44654

Price: \$24.25

Product Description

Mod Podge Ultra is a super-strong, spray formula that works as an all-in-one glue and sealer with a high adhesion level. Mod Podge Ultra is a part of the Mod Podge family of brands but is different compared to any other Mod Podge formula. Though this is a thinner formula, it has the same strong durability as Mod Podge. This versatile water-based, non-toxic decoupage formula comes in a gloss and matte finish that naturally self-levels, and leaves no brush marks. Use this spray decoupage glue to apply decorative and 3D elements to your projects. You can spray, pour, or brush on this unique formula of Mod Podge. Before using Mod Podge Ultra shake the bottle well. Prime the nozzle with a few pumps and spray away from your project to test the spray strength, as the nozzle may sputter. To prevent excess application and prevent drips, apply thin coats rather than one thick coat to your project. For best results elevate your project off of your work surface so Ultra can flow over the edge. While your surface is wet with Mod Podge Ultra, feel free to add any design elements. Allow your project to dry for 4 to 24 hours. Immediately clean the Mod Podge Ultra spray nozzle after each use so that it remains open and clog-free for future use. **CONVENIENT SIZE ?** Mod Podge Ultra comes in two versatile sizes: 4 oz and 8 oz. This spray decoupage glue also comes in a gloss and a matte finish **UNIQUE FORMULA** - Thin spray formula that acts as an all-in-one glue and sealer **DURABLE PROTECTION** - This durable, multi-surface formula is great for indoor and outdoor use **AMAZING RESULTS** - Mod Podge Ultra has high adhesion, will leave no brushstrokes, is self-leveling, and is non-tacky - making this a great addition to your decoupage supplies! **USE ON MULTIPLE SURFACES** - Use this scratch and water-resistant formula on a variety of surfaces including wood, canvas, terra cotta, metal, and more **STRONG SEAL** - Allow your project to dry for 4 to 24 hours, then apply a top coat of Mod Podge Ultra once completely dry for added durability **QUALITY FORMULA** - Mod

Podge Ultra has a water-based and non-toxic formula that is made in the USA
