

ISOMARS Geometrical Shapes

SKU: ISOM 6047M

Price: \$2.58

Product Description

High-Quality Construction: Crafted with precision and durability in mind, the Isomars Geometrical Shapes Template is made from rigid and transparent orange plastic. This ensures that it stands up to repeated use, maintaining its shape and clarity for years. **Versatile**

Design: Whether you're working on design projects, illustrations, or card making, it's an invaluable tool for adding structured and precise shapes to your work. **Fragile Yet Precise:**

While the template is rigid for accurate drawing, it's important to note that it's also fragile and cannot be bent. Handle it with care to ensure it remains in pristine condition and ready for your creative endeavors. **Wide Range of Applications:** The Isomars Geometrical Shapes Template finds its place in a multitude of art and craft applications. Use it for design projects, illustrations, card making, or any creative endeavor where precise geometric shapes are required. **Product**
