

ISOMARS Multi-Scale Female Figure Drawing Template

SKU: ISOM 8001M

Price: \$2.89

Product Description

Multi-Scale Accuracy: The Isomars Multi-Scale Female Figure Drawing Template offers a range of scales, including 1:20, 1:25, 1:125, and 1:100. With these scales, you can effortlessly incorporate accurately proportioned female figures into your technical drawings and illustrations. **Transparent Precision:** Crafted from transparent orange plastic, this template provides clarity and visibility. Its transparency allows you to align and position the figures with precision, ensuring that your drawings reflect accurate human scale. **Versatile Application:** Whether you're a fashion designer or an artist, this template serves multiple purposes. It's perfect for architectural renderings, engineering schematics, fashion sketches, and any project that demands realistic human-scale representation. **Product Specifications**

- **Scales:** 1:20, 1:25, 1:125, 1:100
